Hotchkis and Wiley Capital Management, LLC (the “Firm” or “H&W”) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. H&W has been independently verified for the periods October 9, 2001 through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm’s policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The High Yield Composite has been examined for the periods May 1, 2009 through December 31, 2017. The verification and performance examination reports are available upon request.

H&W is an independent investment management firm registered with the U.S. Securities and Exchange Commission and manages value equity and high yield assets for institutional and mutual fund investors. Its predecessor firm was established in 1980. The equity team of the predecessor firm established H&W in October 2001.

H&W refers to itself as a “registered investment adviser” in materials distributed to current and prospective clients. As a registered investment adviser with the SEC, H&W is subject to the rules and regulations adopted by the SEC under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). Registration as an investment adviser is not an indication that H&W or its directors, officers, employees or representatives have attained a particular level of skill or ability.

Valuations and returns are stated in U.S. dollars. Investment returns include reinvestment of dividends, interest, and capital gains. Gross performance results are presented before management and custodial fees but after all trading expenses. Net performance results are presented after actual management fees and all trading expenses but before custodial fees. H&W’s management fees are described in Part 2A of its Form ADV. The standard High Yield Bond management fee schedule is 50 basis points on the first \$50 million, 45 basis points on the next \$50 million and 40 basis points thereafter. Internal dispersion is calculated using the equal-weighted standard deviation of all portfolios that were included in the Composite for the entire year. A list of composite descriptions and policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. Past performance is no guarantee of future performance.

Composite: The Composite includes all High Yield discretionary accounts. The High Yield strategy seeks high current income combined with the opportunity for capital appreciation to maximize total return primarily through investments in high yield securities and investment grade fixed income instruments. (Composite creation: 2009)

Indexes: The ICE BofAML BB-B U.S. High Yield Constrained Index (“ICE BofAML BB-B”) contains all securities in the ICE BofAML U.S. High Yield Index rated BB+ through B- by S&P (or equivalent as rated by Moody’s or Fitch), but caps issuer exposure at 2%. Index constituents are capitalization-weighted, based on their current amount outstanding, provided the total allocation to an individual issuer does not exceed 2%. The ICE BofAML U.S. High Yield Index (“ICE BofAML HY”) tracks the performance of below investment grade, but not in default, U.S. dollar-denominated corporate bonds publicly issued in the U.S. domestic market, and includes issues with a credit rating of BBB or below, as rated by Moody’s and S&P. The indexes assume reinvestment of dividends and capital gains, and assumes no management, custody, transaction or other expenses. The strategy used in managing the accounts in the Composite may prevent or limit investment in major bonds in the ICE BofAML BB-B and ICE BofAML HY and returns may not be correlated to the indexes. It is not possible to invest directly in the index. The ICE BofAML Indices were known as the BofA Merrill Lynch Indices prior to October 23, 2017. Benchmark returns are not covered by the report of independent verifiers.

The 3-year annualized standard deviation measures the variability of the composite (using gross returns) and the benchmark returns over the preceding 36-month period. As of December 31, 2011, the Composite did not have a 3-year track record.
