

Objective

The Hotchkis & Wiley Diversified Value Fund seeks capital appreciation using a disciplined, value investment process. Through our consistent process and independent research, we own large cap companies that we believe are undervalued relative to their tangible assets, have sustainable cash flow and potential for improving business performance. The Fund is well diversified and seeks to own large, financially strong U.S. based companies that offer the best combination of value and potential for price appreciation. The Fund typically holds 50-80 securities and generally invests in companies with a market capitalization greater than \$5 billion.

Investment Strategy

- Emphasizes rigorous in-house fundamental research to identify undervalued large cap companies
- Employs a disciplined and repeatable investment process
- Incorporates multiple perspectives to enhance understanding of risks

3-Year annualized risk statistics relative to Russell 1000 Value Index.

¹ % of total portfolio includes total investments, cash and cash equivalents, and accrued investment income on a trade date basis.

Portfolio Characteristics

Projected P/E (FY2) is the projected P/E ratios of the companies invested in the portfolio, which ratios represent current market price per share divided by a company's estimated future earnings-per-share. Projected earnings are consensus analyst forecasts; actual P/E ratios may differ from projected P/E ratios. **Price/Normal Earnings** is the current market price per share divided by normalized earnings per share. **Price/Book** is the price of a stock divided by its book value. **Price/Sales** is the aggregate portfolio capitalization to aggregate portfolio historical sales of all stocks in the fund's portfolio as of that date. **Market Capitalization** of a company is calculated by multiplying the number of outstanding shares by the current market price of a share. **Beta** measures the sensitivity of rates of return on a fund to general market movements. **Alpha** measures the Fund's risk-adjusted return above and beyond the return of the market. **R-Squared** is a statistical measure that represents the percentage of a fund's movement that is explained by movements in a benchmark index.

Read carefully before you invest.

(Inception date: I, A and C Shares-8/30/04). Returns shown for A Shares and C Shares without sales charge do not reflect the maximum sales load of 5.25% or the Contingent Deferred Sales Charge (CDSC) of 1.00% for the first year; if reflected, performance would be lower than shown. Returns for A and C shares reflect the deduction of the current maximum initial sales charges of 5.25% and 1.00% CDSC. C Shares convert automatically to A Shares approximately eight years after purchase. A Shares are subject to lower annual expenses than C Shares. I Shares sold to a limited group of investors. Periods over one year are average annual total return. Average annual total returns include reinvestment of dividends and capital gains. Expense limitations may have increased the Fund's total return.

The **Russell 1000® Value Index** measures the performance of those Russell 1000® companies with lower price-to-book ratios and lower forecasted growth values. The index does not reflect the payment of transaction costs, fees and expenses associated with an investment in the Fund. The Fund's value disciplines may prevent or restrict investment in major stocks in the benchmark index. It is not possible to invest directly in an index. The Fund's returns may not correlate with the returns of their benchmark index.
