

Objective

The Hotchkis & Wiley Mid-Cap Value Fund seeks capital appreciation using a disciplined, value-oriented investment process. Through our consistent process and independent research, we own mid-size companies that we believe are undervalued relative to their tangible assets, have sustainable cash flow and potential for improving business performance. The Fund is well diversified and seeks to own mid-size U.S. based companies that offer the best combination of value and potential for price appreciation. The Fund typically holds 50-80 securities and generally invests in mid-size companies with a market capitalization ranging from \$500 million to \$20 billion.

Investment Strategy

- Employs timeless investing principles and independent thinking to drive investment process
- Exploits excessive investor reaction often exhibited in the stocks of mid-size companies
- Capitalizes on the enhanced liquidity and minimal analyst coverage of mid-size companies

3-Year annualized risk statistics relative to Russell Midcap Value Index.

¹ % of total portfolio includes total investments, cash and cash equivalents, and accrued investment income on a trade date basis.

Portfolio Characteristics

Projected P/E (FY2) is the projected P/E ratios of the companies invested in the portfolio, which ratios represent current market price per share divided by a company's estimated future earnings-per-share. Projected earnings are consensus analyst forecasts; actual P/E ratios may differ from projected P/E ratios. **Price/Normal Earnings** is the current market price per share divided by normalized earnings per share. **Price/Book** is the price of a stock divided by its book value. **Price/Sales** is the aggregate portfolio capitalization to aggregate portfolio historical sales of all stocks in the fund's portfolio as of that date. **Market Capitalization** of a company is calculated by multiplying the number of outstanding shares by the current market price of a share. **Beta** measures the sensitivity of rates of return on a fund to general market movements. **Alpha** measures the Fund's risk-adjusted return above and beyond the return of the market. **R-Squared** is a statistical measure that represents the percentage of a fund's movement that is explained by movements in a benchmark index.

The Fund's total annual operating expense ratio as of the most current prospectus is 1.03% for I Shares, 1.20% for A Shares and 1.93% for C Shares. Expense ratios shown are gross of any fee waivers or expense reimbursements.

The performance shown represents past performance. Past performance is no guarantee of future results and current performance may be higher or lower than the performance shown. Investment results and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. To obtain performance data current to the most recent month-end, access our website at www.hwcm.com.

You should consider the Fund's investment objectives, risks, and charges and expenses carefully before you invest. This and other important information is contained in the Fund's summary prospectus and prospectus, which can be obtained by calling 1-800-796-5606 or visiting our website at www.hwcm.com. Read carefully before you invest.

Returns shown for A and C Shares for the periods prior to their inception are derived from the historical performance of I Shares of the Fund during such periods and have been adjusted to reflect the higher total annual operating expenses of each specific Share class (Inception date: I Shares-1/2/97, A and C Shares-1/2/01). Returns shown for A Shares and C Shares without sales charge do not reflect the maximum sales load of 5.25% or the Contingent Deferred Sales Charge (CDSC) of 1.00% for the first year; if reflected, performance would be lower than shown. Returns for A and C shares reflect the deduction of the current maximum initial sales charges of 5.25% and 1.00% CDSC. C Shares convert automatically to A Shares approximately eight years after purchase. A Shares are subject to lower annual expenses than C Shares. I Shares sold to a limited group of investors. Periods over one year are average annual total return. Average annual total returns include reinvestment of dividends and capital gains. Expense limitations may have increased the Fund's total return.

The Russell Midcap® Value Index measures the performance of those Russell Midcap® companies with lower price-to-book value ratios and lower forecasted growth values. The index does not reflect the payment of transaction costs, fees and expenses associated with an investment in the Fund. The Fund's value disciplines may prevent or restrict investment in major stocks in the benchmark index. It is not possible to invest directly in an index. The Fund's returns may not correlate with the returns of their benchmark index. Russell Investment Group is the source and owner of the Russell Index data contained herein (and all trademarks related thereto), which may not be redistributed. The information herein is not approved by Russell. H&W and Russell sectors are based on the Global Industry Classification Standard by MSCI and Standard and Poor's. **Cash flow** measures the cash generating capability of a company by adding non-cash charges (e.g., depreciation) and interest expense to pretax income.

Mutual fund investing involves risk. Principal loss is possible. Investing in small and medium-sized companies involves greater risks than those associated with investing in large company stocks, such as business risk, significant stock price fluctuations and illiquidity. The Fund may invest in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods.
